ABOUT BULLYING...

Here are some questions about peer harassment. To better answer these questions, let's first explain what peer harassment is. If a student.....

- * Mocks or uses humiliating and offensive names towards another
- * Ignores or excludes it from groups of friends
- * Hit, kick, push or lock in a closed place
- * Tells lies about the other, spreads unfounded rumors, sends offensive articles and tries hard because other students don't like it.

And if THIS HAPPENS REPEATLY, this is called bullying. It is difficult to defend against a student who is bullied / harassed by peers. But when do we call bullying and harassment? The student who intimidates another does it to humiliate the other ONE AND AGAIN. That is why we DO NOT call bullying or bullying between peers when the situation is friendly and playful between the two or if the discussion or fight is between two students with the same strength or power. Now answer the following questions.
